Sales Professional:

Introducing Newberry II, inspired by our award-winning Newberry floor plan. This thoughtfully designed home offers 2,820 square feet of living space, featuring a first-floor master suite that epitomizes comfort and convenience.

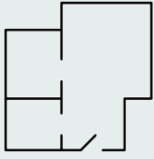

Upon entering, you'll be captivated by the open-concept living space, where the two-story great room seamlessly blends with the dinette and kitchen, creating a warm, inviting area for family gatherings and entertaining. For formal occasions, the elegant dining room with a tray ceiling sets the stage for special celebrations, while the study offers a quiet workspace for those who work from home.

The master suite serves as a tranquil retreat with an elegant tray ceiling, an inviting bath, and a large walk-in closet. Upstairs, you'll find three additional bedrooms and a spacious bath, providing ample space for family or guests. Options include a bonus room over the garage for hobbies or a home theater, allowing customization to fit your needs.
